JOURNAL OF ELECTROANALYTICAL CHEMISTRY

# Subject index

Acrylonitrile
Cathodic polymerization of acrylonitrile at polyfluorene-modified electrodes in aprotic media (Rault-Berthelot, Granger) 169
Additive effects
Electro-oxidation of glucose on platinum in alkaline solution and selective oxidation in the presence of additives (Lei et al.) 103
Adsorption
The use of polarography and cyclic voltammetry for the study of redox systems with adsorption of the reactants. Heterogeneous vs. surface path (Laviron) 111
Aliphatic diols
Electrocatalytic oxidation of aliphatic diols. Part II. Effect of stereoisomerism on the oxidation of 2,3-butanediols at a platinum electrode in acidic media (Hilmi et al.) 53
Alkaline phosphatase
Highly sensitive amperometric measurement of alkaline phosphatase activity with glucose oxidase amplification (Della Ciana et al.) 129
Alzheimer's disease
Influence of glutathione on the electrochemical and enzymatic oxidation of serotonin (Wrona et al.) 41
Amperometry
Amperometric determination of dopamine on an enzymatically modified carbon paste electrode (Forzani et al.) 33
Highly sensitive amperometric measurement of alkaline phosphatase activity with glucose oxidase amplification (Della Ciana et al.) 129
Amplification cycle
Highly sensitive amperometric measurement of alkaline phosphatase activity with glucose oxidase amplification (Della Ciana et al.) 129
Anodic dissolution
Electrochemistry of vanadium electrodes. Part 1. Cyclic voltammetry in aqueous solutions (Privman, Hepel) 137
Electrochemistry of vanadium electrodes. Part 2. Anodic and cathodic polarization over a wide range of pH and temperature (Privman, Hepel) 145
Anodic polarization
Electrochemistry of vanadium electrodes. Part 2. Anodic and cathodic polarization over a wide range of pH and temperature (Privman, Hepel) 145
Aprotic media
Cathodic polymerization of acrylonitrile at polyfluorene-modified electrodes in aprotic media (Rault-Berthelot, Granger) 169

Biosensors
Electro-oxidation of glucose on platinum in alkaline solution and selective oxidation in the presence of additives (Lei et al.) 103

Carbon monoxide
Reactive sites in bulk carbon monoxide electro-oxidation on oxide-free platinum(111) (Wieckowski et al.) 97
Carbon paste electrode
Amperometric determination of dopamine on an enzymatically modified carbon paste electrode (Forzani et al.) 33
Carbon-supported platinum catalysts
Particle size effect of carbon-supported platinum catalysts for the electrooxidation of methanol (Frelink et al.) 65
Carbon/titanium dioxide surfaces
Preparation and characterization of carbon/titanium dioxide surfaces – the reduction of oxygen (Baez, Pletcher) 59
Cathodic polarization
Electrochemistry of vanadium electrodes. Part 2. Anodic and cathodic polarization over a wide range of pH and temperature (Privman, Hepel) 145
Chemisorption
Reactive sites in bulk carbon monoxide electro-oxidation on oxide-free platinum(111) (Wieckowski et al.) 97
Cu adlayers
Effect of underpotential deposition (UPD) of copper on oxygen reduction at Pt(111) surfaces (Abe et al.) 73
Cyclic voltammetry
Structure–property relationships in poly(*o*-phenylenediamine) derivatives (Goyette, Leclerc) 17
The use of polarography and cyclic voltammetry for the study of redox systems with adsorption of the reactants. Heterogeneous vs. surface path (Laviron) 111
Electrochemistry of vanadium electrodes. Part 1. Cyclic voltammetry in aqueous solutions (Privman, Hepel) 137

Dimerization
Electrochemical reduction of $SO_2$ from molten amides—kinetics of dimerization of $SO_2^{\cdot-}$ (Mathew, Narayan) 161
Dioctylphenyl phosphonate
Properties of DOPP in plasticized PVC membranes (Wang) 165
Dopamine
Amperometric determination of dopamine on an enzymatically modified carbon paste electrode (Forzani et al.) 33

Electroadsorption
Study by potential-modulated reflectance spectroscopy of the electroadsorption of CO on Ni in alkaline medium (Cuesta, Gutiérrez) 153
In-situ spectroscopic evidence for the adsorption of $SO_4^{2-}$ ions at a copper electrode in sulfuric acid solution (Brown, Hope) 179
Electrocatalysis
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Electrocatalytic oxidation
Electrocatalytic oxidation of aliphatic diols. Part II. Effect of stereoisomerism on the oxidation of 2,3-butanediols at a platinum electrode in acidic media (Hilmi et al.) 53
Electrochemical kinetics
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Electrochemical synthesis
Structure–property relationships in poly(*o*-phenylenediamine) derivatives (Goyette, Leclerc) 17

Electrochromism
Preparation and electrochemical behavior of conducting films obtained by electropolymerization of benzidine in aqueous media (D'Eramo et al.) 85
Electrode modification
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Electrodes
Cathodic polymerization of acrylonitrile at polyfluorene-modified electrodes in aprotic media (Rault-Berthelot, Granger) 169
Electrooxidation
Particle size effect of carbon-supported platinum catalysts for the electrooxidation of methanol (Frelink et al.) 65
Electro-oxidation
Influence of glutathione on the electrochemical and enzymatic oxidation of serotonin (Wrona et al.) 41
Electro-oxidation of glucose on platinum in alkaline solution and selective oxidation in the presence of additives (Lei et al.) 103
Electropolymerization
Cathodic polymerization of acrylonitrile at polyfluorene-modified electrodes in aprotic media (Rault-Berthelot, Granger) 169
Electroreduction
Electrochemical reduction of $SO_2$ from molten amides—kinetics of dimerization of $SO_2^{\cdot-}$ (Mathew, Narayan) 161
Enzymatic oxidation
Influence of glutathione on the electrochemical and enzymatic oxidation of serotonin (Wrona et al.) 41
Enzyme activity
Highly sensitive amperometric measurement of alkaline phosphatase activity with glucose oxidase amplification (Della Ciana et al.) 129
Enzyme electrode
Amperometric determination of dopamine on an enzymatically modified carbon paste electrode (Forzani et al.) 33

Glucose
Electro-oxidation of glucose on platinum in alkaline solution and selective oxidation in the presence of additives (Lei et al.) 103
Glucose oxidase
Highly sensitive amperometric measurement of alkaline phosphatase activity with glucose oxidase amplification (Della Ciana et al.) 129
Glutathione
Influence of glutathione on the electrochemical and enzymatic oxidation of serotonin (Wrona et al.) 41

Hydrogen photochemical evolution
Kinetics of the photoelectrochemical evolution of hydrogen at p-type Si (Babenko et al.) 175

Interfacial processes
In-situ spectroscopic evidence for the adsorption of $SO_4^{2-}$ ions at a copper electrode in sulfuric acid solution (Brown, Hope) 179
Ion sensors
Properties of DOPP in plasticized PVC membranes (Wang) 165

Kinetics
Kinetics of the photoelectrochemical evolution of hydrogen at p-type Si (Babenko et al.) 175

Methanol
Particle size effect of carbon-supported platinum catalysts for the electrooxidation of methanol (Frelink et al.) 65

NAD(P)H
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25

Optical memory
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Oxide-free platinum
Reactive sites in bulk carbon monoxide electro-oxidation on oxide-free platinum(111) (Wieckowski et al.) 97
Oxygen reduction
Preparation and characterization of carbon/titanium dioxide surfaces – the reduction of oxygen (Baez, Pletcher) 59
Effect of underpotential deposition (UPD) of copper on oxygen reduction at Pt(111) surfaces (Abe et al.) 73

Particle size
Particle size effect of carbon-supported platinum catalysts for the electrooxidation of methanol (Frelink et al.) 65
Photostimulated electrodes
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Photoswitchable electrodes
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25
Plasticized PVC membranes
Properties of DOPP in plasticized PVC membranes (Wang) 165
Platinum electrode
Electrocatalytic oxidation of aliphatic diols. Part II. Effect of stereoisomerism on the oxidation of 2,3-butanediols at a platinum electrode in acidic media (Hilmi et al.) 53
Platinum electrodes
Electro-oxidation of glucose on platinum in alkaline solution and selective oxidation in the presence of additives (Lei et al.) 103
Polarography
The use of polarography and cyclic voltammetry for the study of redox systems with adsorption of the reactants. Heterogeneous vs. surface path (Laviron) 111
Polyfluorene-modified
Cathodic polymerization of acrylonitrile at polyfluorene-modified electrodes in aprotic media (Rault-Berthelot, Granger) 169
Poly(*o*-phenylenediamine) derivatives
Structure–property relationships in poly(*o*-phenylenediamine) derivatives (Goyette, Leclerc) 17
Potential-modulated reflectance
Study by potential-modulated reflectance spectroscopy of the electroadsorption of CO on Ni in alkaline medium (Cuesta, Gutiérrez) 153
Pt(111) surfaces
Effect of underpotential deposition (UPD) of copper on oxygen reduction at Pt(111) surfaces (Abe et al.) 73
Pyrroloquinolinoquinone
Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25

Raman spectroscopy
In-situ spectroscopic evidence for the adsorption of $SO_4^{2-}$ ions at a copper electrode in sulfuric acid solution (Brown, Hope) 179
Reaction kinetics
Electrochemistry of vanadium electrodes. Part 1. Cyclic voltammetry in aqueous solutions (Privman, Hepel) 137

Electrochemistry of vanadium electrodes. Part 2. Anodic and cathodic polarization over a wide range of pH and temperature (Privman, Hepel) 145

Reactive sites

Reactive sites in bulk carbon monoxide electro-oxidation on oxide-free platinum(111) (Wieckowski et al.) 97

Redox properties

Preparation and electrochemical behavior of conducting films obtained by electropolymerization of benzidine in aqueous media (D'Eramo et al.) 85

Rotating disc technique

An application of unified least squares method to the mathematical modelling of autocatalytic reactions (Kolenda et al.) 1

Serotonin

Influence of glutathione on the electrochemical and enzymatic oxidation of serotonin (Wrona et al.) 41

p-type Si

Kinetics of the photoelectrochemical evolution of hydrogen at p-type Si (Babenko et al.) 175

$SO_2$

Electrochemical reduction of $SO_2$ from molten amides—kinetics of dimerization of $SO_2^{\cdot-}$ (Mathew, Narayan) 161

$SO_4^{2-}$ ions

In-situ spectroscopic evidence for the adsorption of $SO_4^{2-}$ ions at a copper electrode in sulfuric acid solution (Brown, Hope) 179

Spiropyran derivatives

Control of electrochemical processes by photoisomerizable spiropyran monolayers immobilized onto Au electrodes: amperometric transduction of optical signals (Katz et al.) 25

Stereoisomerism

Electrocatalytic oxidation of aliphatic diols. Part II. Effect of stereoisomerism on the oxidation of 2,3-butanediols at a platinum electrode in acidic media (Hilmi et al.) 53

Structure-property relationship

Structure–property relationships in poly(*o*-phenylenediamine) derivatives (Goyette, Leclerc) 17

Underpotential deposition

Effect of underpotential deposition (UPD) of copper on oxygen reduction at Pt(111) surfaces (Abe et al.) 73

Unified least squares

An application of unified least squares method to the mathematical modelling of autocatalytic reactions (Kolenda et al.) 1

Vanadium electrodes

Electrochemistry of vanadium electrodes. Part 1. Cyclic voltammetry in aqueous solutions (Privman, Hepel) 137

Electrochemistry of vanadium electrodes. Part 2. Anodic and cathodic polarization over a wide range of pH and temperature (Privman, Hepel) 145
